

***National Science Fund***

1. TN 801/1998: Mobile robotized systems working in harmful environments
2. NPR-1/2003: Research of new knitting method
3. TN 1411/2004: (HEK по ТН): Adaptive mobile micro robots for environment investigation
4. D01-N09/2006: Modern control systems for machines with linear motors
5. D01-439/2008: Innovative modules and systems for medicine automation
6. D002-13/2009: New methods and means for renovating of extrusion shafts
7. D002-262/2008: High speed stamping hammer with rocket engine
8. ID-09-00-44/2010: Assistive computer interface for visually impaired
9. ID-09-00-48/2010: New shape milling bodies for ball mills

***National Innovation Fund***

10. IF-02-50/2006: Hardware and software for new type knitting machines

***Spesima GMBH***

11. SM-001/2006: **Specialized robot for hot-stamping machines**

***Steel met LTD***

12. ST 001/2005 **Control system for two-arm manipulator in aluminum profiles extruding line**

***Psycho hospital – Stara Zagora***

13. MS-001/1998: Information system for health care
